Eur

Description: The laptop used by Angelo Camerlenghi (purchased in 2017) has problems with keyboard and battery that make its use difficult especially during the frequent travels for ESSAC.

Buying a new laptop would cost 1600 Euros or more. The replacement of parts that do not work well, according to the estimate of the Apple R-Store Assistance Center in Trieste, amounts to 703.00 Euros including VAT and would restore functionality to the laptop and extend its life by a few years. Therefore, the order of replacement is urgently requested.

Allegato: cost estimate and richiesta di fornitura.
