

ABOUT

Article processing charges

[Home](#) [About](#) [Article processing charges](#)

Geoscientific Model Development is committed to the open-access model of publishing. This ensures free web access to the results of research and maximum visibility for published papers. However, it requires the author or a supporting institution to pay the costs of the review process, typesetting, web publication, and long-term archiving. These article processing charges (APCs) are levied for the publication of the final revised paper in the journal (preprints are free of charge).

The article processing charges (APC) for any manuscript submitted **from 1 January 2021 are €1,600 net** per paper accepted & produced for final journal publication in GMD. Corrigenda are free of charge.
