Web of Science: COSSARINI G; Research Gate: Cossarini Gianpiero; Orcid.org: 0000-0001-7803-8568

Sex M | Date of birth 27/03/1974 | Nationality Italian

## WORK EXPERIENCE

- From Jan 2023  
- present **Lead Researcher (Dirigente di Ricerca)**  
**National Institute of Oceanography and Applied Geophysics – OGS, Trieste (Italy)**  
Research activities include: Biogeochemical modeling focusing on nutrient and carbon cycles, carbon pump, eutrophication and acidification of the Mediterranean Sea and its marginal seas using coupled physical-biogeochemical-carbonate models; biogeochemical data assimilation, uncertainty and sensitivity analysis of coupled physical-biogeochemical models; analysis of status, variability and trend of marine, estuarine and coastal ecosystems (Lagoon of Venice, Gulf of Trieste, Northern Adriatic Sea) and analysis of the relationships between ecosystem variability and driving forcing (both modelling and statistical approaches are used); operational system for short-term biogeochemical forecast of the Mediterranean Sea including products quality assessment and model validation; reanalysis and modeling climate studies on Mediterranean Sea biogeochemistry; analysis of the effects of climatic changes on coastal ecosystems and plankton communities.  
The research activity is described in 67 papers published in international peer reviewed journals and 15 contributions in books and other peer-reviewed journals.  
Responsible of the Biogeochemistry Component of the Copernicus Mediterranean Monitoring and Forecast Centre (2015-2024).  
Responsible of the Copernicus service evolution project MASSIMILI (2016-2018) for the development of data assimilation of BGC-Argo float data. Principal Investigator for OGS and WP leader of the H2020 SEAMLESS (2021-2023) and HEU NECCTON (2023-2026). Involved in several EU FP7 (MyOcean, OPEC, MEDSEA, E-AIMS, CoCoNet), H2020 (EUROSEA, FORCOAST, SHAREMED) and national funded (VECTOR, RITMARE, Acidit) scientific projects and high performance computing (ISCRA-CINECA, PRACE) projects.  
List of duties and responsibilities includes: member of the ESFM PhD scientific committee (Trieste University); supervisor of several PostDoc researchers, PhD and Master students; member of the committee for the development of a HPC centre in OGS; member of BFM Consortium scientific committee; MultiYearProduct expert for the Med-MFC Copernicus working group, member of the Product Quality Working Group of Copernicus Marine service, member of the Ocean Predict OceanPredict Marine Ecosystem Analysis and Prediction Team from 2017; guest editor of an Ecological Modelling special issue and reviewer for Ecological Modeling, Ocean Modeling, Ocean Dynamics, Biogeosciences, and Journal of Marine Science.
- From Jan 2020  
to Dec 2022 **Senior Researcher (Primo Ricercatore)**  
**National Institute of Oceanography and Applied Geophysics – OGS, Trieste (Italy)**  
Research activities include: Biogeochemical modeling; biogeochemical data assimilation, uncertainty and sensitivity analysis; operational system for short-term biogeochemical forecast of the Mediterranean Sea; reanalyses and modeling climate studies on Mediterranean Sea biogeochemistry;
- From 2006 to  
Dec 2019 **Researcher (from May 2008 permanent position)**  
**National Institute of Oceanography and Applied Geophysics – OGS, Trieste (Italy)**  
Research activities include: Biogeochemical modeling; biogeochemical data assimilation, uncertainty and sensitivity analysis; statistical analysis of marine data, operational system for short-term biogeochemical forecast of the Mediterranean Sea; reanalyses and modeling climate studies on Mediterranean Sea biogeochemistry;
- From 2004 to  
2006 **Post-doc position (assegno di ricerca)**  
**National Institute of Oceanography and Applied Geophysics – OGS, Trieste (Italy)**  
Analysis of marine ecosystems: statistical analysis of hydrodynamical and biogeochemical dataset, and development of coupled transport-biological model. Application to the study sites: gulf of Trieste, Gulf of Venice, and Northern Adriatic Sea
- From Mar  
2003 to Aug  
2003 **Visitor student during PhD period**  
**Division of Engineering and Applied Sciences, Harvard University, Boston –USA**  
Development of data assimilation methods on ecosystem/biogeochemical models
- From Sep  
1999 to Jan  
2003 **Scientific collaboration**  
**University of Venice, Dept. of Physical Chemistry, Università Cà Foscari, Venezia, Italy**

2000 Development of techniques of Data Assimilation on the 3-D model of the lagoon of Venice; development of graphical procedure for the visualization of 3D model results

## EDUCATION AND TRAINING

- From: 2001-12-01 to: PhD in Environmental Science (in Italian: Biomonitoraggio dell'alterazione ambientale)  
2003-12-31 University of Trieste, Piazzale Europa, Trieste, Italy  
Title of the thesis (translated from Italian): Development and application of a suite of models and statistical methods for the analysis of biogeochemical state and dynamics in coastal ecosystems
- From Feb 2000 to Dec 2000 student grant  
**National Institute of Oceanography and Applied Geophysics – OGS, Trieste (Italy)**  
Collaboration within the research project INDICCO Indicator Coastal Community founded by European Community (FAIR CT98-4399) on the development of a database of Italian fisheries communities. Analysis of available biological, chemical and physical data on Gulf of Trieste; phenomenological description of the ecosystem and the development of a 0D mathematical model
- From: 1993-10-01 to: ITA Diploma di Laurea in Science Ambientali  
1999-07-27 Master degree in Environmental Science, 110/110 cum laude  
University of Venice, Ca Foscari, Venice, Italy  
title of the thesis (translated from Italian): development and application of a 3D transport-biogeochemical model of the lagoon of Venice, and the comparison between simulations and time series

## PERSONAL SKILLS

Mother tongue(s) Italian

Other language(s)	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C1	C2	C1	C1	C2

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user  
Common European Framework of Reference for Languages

Computer skills Good knowledge of the following languages Fortran, Matlab, Python, and good experiences on the following OS: LINUX, UNIX and WINDOWS

- Papers on international scientific journals
- p67 Pietropoli G., Manzoni L., **Cossarini G.**, 2023. Multivariate Relationship in Big Data Collection of Ocean Observing System, Applied Sciences, 13,9, doi.org/10.3390/app13095634
